# Wait...what's a registry

Patients want information...

...for themselves and their doctors

...when they need it

...from sources they can trust

...in places they can find

# MDEPiNET Task Force Report

- ✓ Passive data collection
- ✓ Iteration, not punishment
- ✓ Evaluation, not surveillance

# Anna's Recent Device Issues

# Where do we need to go?

...from adverse event reporting to stability, accuracy and reliability

...from doctor and company reporting to patient reporting

...from requesting data access from devices to requiring it
